W-2 + 1099 Tax Prep Checklist

One return. More than one kind of income.

A CHECKLIST THAT MAKES SENSE

Working a W-2 job while earning 1099 or self-employment income? Keep both income streams organized, check your tax payments, and bring the right records to your preparer.

INSIDE THIS CHECKLIST

01
Gather both income types

02
Check income, expenses & taxes

03
Get prepared for 2027 filing

D-XIRE ELITE TAX / MODERN TAX PREP WITH A PERSONAL TOUCH

For general record organization. Tax treatment depends on your situation.

01 / THE TWO TYPES OF INCOME

Gather both income streams

Wages and self-employment are different sources of income. Bring records for both.

EMPLOYEE / PAYCHECKS

W-2 wages

- [ ] All 2026 Forms W-2 from every employer.
- [ ] Final pay statements if a W-2 is missing or needs review.
- [ ] Any corrected W-2 (Form W-2c).
- [ ] Employer names for every job held in 2026.
- [ ] Federal and state withholding shown on your W-2s.
- [ ] Other Forms 1099 for interest, unemployment or retirement, if applicable.
- [ ] Any IRS or state notices about wage reporting.

INDEPENDENT WORK

1099 & other income

- [ ] 2026 Forms 1099-NEC, 1099-MISC and 1099-K received.
- [ ] Invoices, client payments, booking or sales records.
- [ ] Cash, checks, bank transfers and direct payments.
- [ ] Payment-app and marketplace statements.
- [ ] Tips, digital payments or other business receipts.
- [ ] Corrected forms or reports that look incorrect.
- [ ] Estimates paid to IRS or state, if any.

DON'T MISS INCOME

Business income may still be reportable even if no Form 1099 arrived. Gather the underlying records.

IRS REFERENCE: DOCUMENTS TO GATHER

02 / PUT THE NUMBERS TOGETHER

Avoid counting income twice

Your Forms 1099 and payment reports may overlap. Use your records to identify the same payment.

ONE PAYMENT CAN APPEAR IN TWO PLACES

Example: You invoiced a client $200, and they paid by card. The same $200 may appear in your invoice records and on Form 1099-K. That does not make it two separate sales.

YOUR INCOME RECONCILIATION

01

Start with actual receipts

List all services, sales, tips and payments received in 2026.

02

Match the forms to the receipts

Compare 1099-NEC, 1099-K and platform totals with your own records.

03

Flag adjustments or transfers

Identify refunds, fees, chargebacks, duplicate reporting and personal transfers.

04

Keep proof of the difference

Save the sales detail and statements to explain your final totals.

REMEMBER A Form 1099-K reports gross payment activity; it is not automatically additional taxable profit.

IRS REFERENCE: FORM 1099-K

03 / EXPENSES & PROOF

Track business expenses

A business purchase is not automatically deductible. Keep dates, amounts, and business purpose.

OPERATING COSTS

Receipts to gather

- [ ] Supplies, materials and consumables.
- [ ] Software, website and subscription charges.
- [ ] Payment processing and platform fees.
- [ ] Advertising, professional fees and permits.
- [ ] Equipment and technology purchases.
- [ ] Business space, booth or coworking fees.
- [ ] Business insurance or other applicable costs.

USE & ALLOCATION

Records to support

- [ ] Business mileage log with dates and purpose.
- [ ] Vehicle costs and total miles, if relevant.
- [ ] Phone and internet business-use records.
- [ ] Travel, parking, toll and meal records.
- [ ] Home-office records, only if you may qualify.
- [ ] Inventory or product purchase records, if applicable.
- [ ] Receipts for costs with both personal and work use.

KEEP A SIMPLE RECORD FOR EACH EXPENSE

Date + item purchased + amount + business purpose + receipt

A tax preparer can help determine whether an expense qualifies and how it should be treated.

04 / WITHHOLDING & ESTIMATED TAX

Check what you already paid

A W-2 paycheck may have withholding, while self-employment payments usually do not.

WHY YOU SHOULD REVIEW BOTH

Your W-2 federal withholding applies to your overall return, but it may not fully cover tax on additional business earnings. Self-employment tax can also apply. That is why your expected refund or balance may change.

RECORDS TO GATHER

- [ ] Federal income tax withheld from all Forms W-2.
- [ ] Confirmation numbers for federal or state estimated payments.
- [ ] 2025 tax return, if available, to discuss payment planning.
- [ ] Any current Form W-4 changes or extra withholding requests.
- [ ] Notices or records of other tax payments and credits.

OPTION 1 / W-4

Ask whether increasing W-2 withholding makes sense for your total income.

OPTION 2 / ESTIMATED PAYMENTS

Ask whether you need Form 1040-ES estimated tax payments.

IRS REFERENCE: ESTIMATED TAXES

05 / HOUSEHOLD & FINAL REVIEW

Prepare the full picture

W-2 and business income are only part of the story. Your household details may matter, too.

HOUSEHOLD

Life & family changes

- [ ] Marriage, divorce or separation dates.
- [ ] Children or other dependents and living arrangements.
- [ ] Childcare payment/provider records.
- [ ] Moves, education or household changes.
- [ ] Health Insurance Marketplace Form 1095-A, if applicable.

POSSIBLE BENEFITS

Other tax documents

- [ ] Tuition Form 1098-T and education expenses.
- [ ] Student loan interest Form 1098-E, if received.
- [ ] Homeownership, property taxes and charitable records.
- [ ] HSA or other qualifying benefit records.
- [ ] Applicable retirement contribution records.

MY FINAL CHECK

- [ ] All my W-2 and non-W-2 income sources are represented.
- [ ] I have matched 1099 amounts against payment records to spot duplicates.
- [ ] I have kept support for any expenses I want reviewed.
- [ ] I have records of withholding, estimated payments and major life changes.

Keep personal tax IDs and bank details in a secure place. Do not email them casually.
